02.

MAN AND NATURE IN SILENCE AND AMONG THE STARS: TRILOGY IN THE AIR

The contact with nature is the first step to purify both mind and body. At Lefay Resort & SPA Lago di Garda, the temple of holistic wellness stretches into the wonderful 11-hectare park that surrounds the Resort. Within this setting, where man and nature are close to each other, three different trails have been created: the *Energy and Therapeutic Garden*, whose energetic stations are based on the principles of Classical Chinese Medicine; the *Running Circuit* and the *Sky Fitness Path* for outdoor activities. Here, the physical-energetic rebalancing classes, which are an integral part of the Lefay SPA philosophy, take place in front of a unique view.

ENERGY AND THERAPEUTIC GARDEN Il Simbolo della Vita

Consistently with the principles of Classical Chinese Medicine and the idea that there is no separation between people and their natural environment, the energy concept and the theory of the five movements are expressed both in the indoor and outdoor at Lefay SPA. Great attention has been paid to the Energy and Therapeutic Garden's project, which is the result of the collaboration between the Lefay SPA Method Scientific Committee and the designers. The "Il Simbolo della Vita" Energy and Therapeutic Garden traces the stages of life and is composed by five different stations full of symbolisms. These circuits, with various shapes, colours, essences and specific postures and meditation activities, have a significant

effect on the body and the function of indicating to the small elements that compose us, the need to enter in the nature and, perceiving it as an ally, to exercise and unwind within it.

THE GREEN DRAGON

Restorative for restlessness, impetuosity and anger. Located in the East, it represents the renewal of nature, the spring, the dawn of life. Situated in the middle of the forest, it is characterised by wooden furniture and tree cookie floor: it is surrounded by evergreen plants (ferns) and typical essences (rosemary and mint).

火

THE RED PHOENIX

It stimulates the senses, encourages joy and harmony with oneself and with nature. It is positioned in the South and represents the culmination of energy, the summer, noon. It is characterised by the red colour of the pavement, the rounded shapes (like fire), the typical essences of the season (lavender) and the medicinal plants that instil serenity (passion flower). The station provides a view of the mountains and the lake.

金

THE WHITE TIGER

It encourages concentration and introspection. This is positioned in the West and it is the mirror of inner place. It represents the start of gathering and meditation, Autumn and sunset. The colour white, the metal benches and the typical essences and medicinal plants (eucalyptus and birch) characterise it.

水

THE BLACK TORTOISE

It refocuses and gathers dissipated energy in times of stress. The Black Tortoise is found in a valley facing North. It features a rocky cave, a small river and benches of bare rock. There are no distracting noises or landscapes. It is the station of the relationship with ourselves and it represents Winter and the end of the day. The associated plants are juniper and geranium.

土

THE CENTRE

It energetically connects all individual stages. This station is located in the centre of the energy and therapeutic garden on a hill covered in yellow flowers and typical medicinal plants (lemon balm). It is the connection of all the stations and offers unique breathtaking views.

LEFAY SPA SIGNATURE TREATMENTS

Lefay SPA Signature treatments have been created combining traditional massage techniques to stimulate energy points and meridians, and are tailor-made for the individual's physical and mental state, for a deep and long-lasting result. The Signature offer includes: energy massages, energy aesthetic treatments for the face and body and special treatments of the "Perfumes of the Lake" section.

01.

FACE & BODY ENERGY BALANCING MASSAGES

The Lefay SPA massages aim to reactivate energy channels as well as rebalance the energy of body and mind, and are personalised according to the individual's psycho-physical status. They have been developed by associating the principles of Classical Chinese Medicine with Western techniques, thanks to a combination of traditional massages techniques with the stimulation of "points and meridians" which activate the "energy" systems, ensuring that the treatment is deep and long-lasting. This method enhances the effects of a traditional massage, because the body receives an "energy message" which will be remembered and elaborated with time. All massages are carried out with Lefay SPA natural certified products and are accompanied by chromotherapy and aromatherapy with essential oils.

BODY MASSAGES

RELAXING

Scambio nel Vento

Much of our daily tensions are embedded onto different areas of the body, especially the head, neck and shoulders. This massage uses Western techniques, including kneading and friction, on energy points in the body. Slow and medium pressure acts on the muscular tension and the stimulation of energy points allowing you to relax your entire body.

STRESS-RELIEVING

La Quiete

The anti-stress massage is performed with Western techniques on the energy functions. Leads to deep relaxation and helps our vital energy to repair itself from the stress to which it is subjected. Using slow movements with medium and enveloping pressure, this massage stimulates certain energy points that have the specific and intrinsic ability to ease muscle tension and, more generally, relax the spirit, mind and body. Other energy points are activated to nourish the whole organism, thereby eliminating stress. The rejuvenated body will be able to perceive lightness as the overwhelming feeling of relaxation, peace of mind and change.

YIN AND YANG REBALANCING TUINA WITH MOXIBUSTION

I Colori dell'Uomo

According to Classical Chinese Medicine, well-being corresponds to the inner balance of two fundamental forces: Yin and Yang. These untranslatable terms represent two opposing and complementary forces present both in nature and in man. Depending on the energy constitution, these massages restore the balance between Yin and Yang, providing well-being for the body as a whole.

White. In a healthy situation, each organ should perform the function it has been created for. Sometimes, however, lifestyle or other factors can disrupt the body's processes. The White Massage regulates lifestyle disorder. It is carried out using a rhythmic and reactivating technique: gentle percussions bring blood and energy to the tissues, stimulating energy activity and improving breathing.

Black. It treats the whole body, working on the strength and stress level in the organism. It focuses particularly on the kidney, considered the seat of the strength and metaphorically compared to the roots of a tree. It uses relaxing, yet intense and firm manual techniques, concentrating on the posterior muscles and the lumbar region. It concludes with a head massage that relieves tension.

Red. According to Classical Chinese Medicine, blood is not only responsible for the nourishment of the body, but also for its peace of mind. Blood represents the relationship between the "self" and the others, our empathy skills and our ability to understand and not judge oneself. The deep, enveloping manual techniques work on the postural musculature of the body and in the end stimulate some points on the face and ears, where we can find the "reflected image" of the head with all its functions.

Blue. It treats all cases of lack of energy, tiredness, difficulty in waking up. It helps supply the body with energy, reactivating the *Qi*. It is a dynamic, rebalancing and invigorating massage, particularly indicated even after an illness or health problems.

Yellow. It refers to the ability to be 'centred', i.e. aware and consistent with oneself. It means saying or doing what we think is right without being influenced by what others expect. On a psycho-physical level, it works on the points where anxiety and sadness are concentrated. Deep, enveloping massage that regulates the energy of the centre which has been diverted or derailed by worries, giving a feeling of serenity.

Green. It is related to digestion, which, in Classical Chinese Medicine, means internalising what comes from outside. It can therefore refer to a real meal or to something we have read, heard, felt. It deals with memory, the ability to remember and connect, the ability to live light-heartedly, to look forward to the future without fear. It uses stimulating and dynamic manual skills, insisting on the legs.

REBALANCING WITH GUA SHA

Massaggio di Giada

In Chinese culture, jade is considered the most important and precious stone. It is the Emperor stone due to its dual purifying and healing properties. *Massaggio di Giada* is in harmony with the characteristics of this stone, being characterised by a light and delicate manual technique in which hand movements and those performed using Gua Sha, the ancient practice of Chinese medicine, alternate in perfect synergy, thereby following the

Yin and Yang directions of energy meridians. A massage that works on the upper layers of the skin and muscles, being a treatment with effectiveness that is intensely transmitted into the deeper layers of the body. The essential oil used is derived from the rose, a flower that is traditionally associated with wholeness and nobility.

Yang Sheng "Nutrire la Vita"

养 "Yang" means to feed, to care, 生 "Sheng" means to give birth, to live, to grow. In the Chinese interpretation, "Yang Sheng" means to nurture one's personal potential. It refers to nourishing your vital potential, rebalancing your strength, increasing your intellectual capacity, improving the elasticity and resilience of your muscles, and the flexibility of your joints. It is also important to recharge your batteries in the peace of mind. NON INVASIVE AESTHETIC MEDICINE

THE NATURAL DIRECTION OF BEAUTY

The treatments are based on an approach to rejuvenation that guarantees effective, safe and harmonious results over time using non-invasive techniques and tools designed to improve skin blemishes. The Lefay SPA innovative energy aesthetic treatments, included in this section, are based on the use of acupuncture for aesthetic purposes.

01.

ENERGY AESTHETIC MEDICINE

Chinese Aesthetic Medicine (Mei Rong) has its roots in 475–221 B.C., at the time of the so-called Warring States, which fought for supremacy of Ancient China. It was a time in history when aesthetic acupuncture was reserved solely for imperial concubines and was considered valuable for preserving good health and slowing the ageing process. The Huangdi Neijing, the most important Classical Chinese Medicine text dating back to the 1st-2nd century B.C., documents the effects produced by ageing on the skin and body. The work suggests acupuncture, moxibustion, massages and Qi Gong as the principal techniques for slowing the signs of time.

FACE

ACULIFTING AND FACE MASSAGE WITH GUA SHA Farfalla di Seta

East and West meet in this effective non-invasive and non-toxic lifting treatment. The treatment starts with acupuncture that aims to slow the formation of wrinkles and stimulates the facial energy points to make the skin supple, glowing and as soft as silk. This is followed by the Gua Sha face massage with draining and modelling effect, which eliminates lymphatic accumulations, reshaping the face and neck and giving new radiance. The results are visible from the first treatment.

BODY

ANTICELLULITE

(Acupuncture with electrolipolysis and energy body massage)
Il Fluire del Ruscello

An innovative holistic treatment aimed at eliminating imperfections in the areas of the thighs and gluteal muscles. This programme involves three stages:

- Medical Diagnosis and personalised Phytotherapy carried out in accordance with the principles of Classical Chinese Medicine to identify the causes of the imperfection;
- Acupuncture to stimulate the points connected to the energetically imbalanced organs. The needles are applied to areas with greatest fluid retention or cellulite and arranged along acupuncture channels. Micro-electrodes are then used, which are set according to particular electrical frequencies and intensities;
- Massage with draining and anti-cellulite action performed with a Gua Sha, a typical Chinese technique that stimulates the acupuncture channels and points where an accumulation occurs, following specific manipulative techniques.

REGENERATIVE AESTHETICS

CRYOTHERAPY

(Total body)

The session consists of sitting in a cold chamber with temperatures ranging from -85° to -95° C for 3 to 5 minutes. The short-term cooling encourages positive reactions of the body by stimulating an increased circulatory response of the blood and lymphatic flow, toning the "inner substance", which in Classical Chinese Medicine is called "Yin". The treatment is suitable for reducing pain and inflammation in muscles and joints and improving body composition by accelerating the basal metabolic rate. The stimulated skin will naturally produce more collagen, resulting in a smoother and more radiant skin.

OSTEOPATHIC MANIPULATIVE TREATMENT

This is a process by which the body is guided to find harmony and integration between body, mind and spirit, which restores the self-healing powers of the individual. Because it acts primarily on bone and skeletal structures, it is more suitable for issues such as sports injuries or back pain.

CRANIOSACRAL TREATMENT

The name "craniosacral osteopathy" comes from the bone structures around our nervous system (skull and sacrum), protecting the brain and spinal cord. The manipulation of these parts works on the connection between the body and the skull, harmonising our functions and our psychological state. This treatment is relaxing and ideal in cases of headache, stress and neck tensions.

HEALTH CHECK-UPS

FOOD INTOLERANCE TEST

Many studies have shown a relationship between food intolerances, excess weight, skin conditions and digestive disorders. This test, which is carried out using a specific methodology, highlights any hypersensitivity to foods and draws up a personalised nutritional profile. It is recommended for the overweight, those suffering from shortness of breath or sleep apnoea, and before beginning a responsible weight-loss programme. The test is carried out by sampling the capillary blood.

INSOMNIA CHECK-UP

PSYCHO-PHYSIOLOGICAL-STRESS-TEST

Cortisol Curve Test

Cortisol, better known as “stress hormone,” is the hormone released by our body throughout the day in response to stressful stimuli. Taking place at two different times of the day, this specific check-up precisely determines, whether the cortisol levels are normal or not.

This test is self-performed by taking two salivary samples.

MEDICAL CONSULTATIONS

ENERGY MEDICAL EXAMINATION

A seventeenth-century document described this as the song of the 10 questions since the energy doctor makes enquiries regarding certain characteristics of the body that range from dreams to digestion, trying to perceive any small changes in energy in the body before these changes develop into a disease. The doctor also observes the colouration of the skin, listens to the tone of the voice, asks about favourite foods and feels the radial pulses. This sequence allows an energy diagnosis to be made, according to which specific treatments, based on the changes encountered, are applied.

THE SECRETS OF LONGEVITY

Our habits can either lead us to a healthy, long-lived life or expose us to health risk factors. Scientific research investigates how chronic inflammation can promote the occurrence and development of certain diseases, including obesity, cardiovascular disease, bone and joint disorders, autoimmune and neurodegenerative conditions. However, it is possible to slow down the ageing clock: The consultation examines how well a person lives, eats and sleeps, according to Longevity Medicine and the ancient principles of Classical Chinese Medicine. The doctor suggests changes that should be made in lifestyle to lengthen our life in a healthy way, increasing its quality.
