# SUSTAINABILITY

---

Exclusivity means doing what no one else has yet thought of, investing in the present and the future, creating something for a select few that benefits everyone. This is why Lefay implements eco-sustainability, bio-architecture and clean and renewable energy sources in the design and construction of its Resorts. The wellbeing of the individual is intrinsically linked to the wellbeing of the environment.

# LEFAY SPA

Here wellness is all around: in the explosion of light that filters through the large windows, in the beautiful park, in the water of the swimming pools, in the magical atmosphere that encircles everything.

## WORLD OF WATER AND FIRE

The Lefay SPA also features six different types of sauna and five relaxation areas to remove the stresses of everyday life. The “Adults Only SPA” is a calm space with expansive views over the lake from the central whirlpool and from the panoramic Finnish sauna.
